Double Bed

Code: DBD005

PLEASE READ CAREFULLY & KEEP FOR FUTURE REFERENCE

DAT190226

Thank you for buying a **Little Folks** piece of furniture

Treated properly it should be a faithful servant for years - and we hope you get the same amount of pleasure from it. Before you do

- please take a few minutes to read these instructions
- we suggest you carefully unpack everything, lay it out on a clean, flat floor and identify everything on the parts list in these instructions. Do not throw away any packaging until you are sure you have all the parts.

If you have any problems assembling the product please call our customer services on 01985 300588 and we will try and help. If for any reason you wish to return the product, you must disassemble the product and pack in the original packaging.

Taking care of your product

Your furniture should require no more than a regular dust off with a soft cloth. If the furniture is not painted then a superior wood polish can be used - but never use polishes containing silicone.

If necessary it can be cleaned with a damp cloth with a mild detergent solution - and then dried with a lint-free cloth. Never clean with abrasives or chemical cleaners.

Direct sunlight or heat from a radiator can stain, discolour warp or crack furniture.

We know furniture can be heavy but try not to drag furniture across the floor as this can damage it.

PRODUCT SAFETY

The recommended size of the mattress is 190cm x 122cm (6'3" x 4'0)

Periodically check all fittings to ensure that none have come loose.

Keep away from direct sources of heat, such as electric, gas or coal fires.

Do not allow children to Climb on the furniture.

Using this furniture other than for its intended purpose could cause damage to the structure or serious injury to your child.

The Bed should not be used if any structural part is broken or missing.

If you can manage it, please try to persuade your children not to bounce on the bed.

Warning: The child's bed should not be placed too close to other furniture or windows, blind cords, curtain pulls or other strings or cords, and should be placed either tight to any wall or have a gap of 300mm between the wall and the side of the bed.

If you have any problems please do contact us for help on e mail customerservices@littlefolksfurniture.co.uk or phone our **CUSTOMER SERVICES 01985 300588**

Parts

Fittings

Tools Required

Preparing the side rails

8 x small dowels

Insert two wooden dowels into the two outer holes on each end of the side rails. There should be around 1cm of each dowel projecting when fitted.

Note: understanding the cam fittings (see guidance below before inserting the cams).

Now insert the circular cam into the large hole seen on the inside of the side rail at each end.

Understanding how the circular cam engages and tightens onto the leg bolt.

Rotating the cam clockwise draws the leg bolt into the cam

This will help you understand the assembly of the side rails.

Preparing the bed ends

4 x leg Bolts

On each bed leg, large end and small end, you will find three holes. The centre hole will be fitted with metal insert which contains an internal thread. Simply rotate one leg bolt into each of the four metal inserts, tighten with a screwdriver.

hand tight only

Screwdriver

Making the bed frame (Two people)

1 x Allen key

Align one side rail end (mattress support timber on inside of bed), using the leg bolt as a reference. Slowly push the side rail towards the bed leg until the two dowels engage into the bed leg holes. Once the bed leg bolt touches the circular cam you will have to rotate the cam for the fitting to pull the frame together.

Check that the fittings are all secure and the bed is stable

Fitting the central brace

Orientate the central brace so the end brackets drop downwards into the two fitted brackets that are fitted on the large and small end.

Note: You may have to loosen the bed side rails slightly to create space for the brace to connect.

Fit the bed mattress base

30 x screws

Carefully roll out the mattress base onto the mattress support pieces fitted on the inside of the mattress rails, webbing on the underside. Starting at one end of the bed, push the end lath tight up against the bed legs and screw in place using the two end holes in the lath. Now push the other end lath tight up against the bed legs at the opposite end of the bed, screwing down to secure. Once both ends of the base are fitted, position yourself at the centre of the bed, now fix each end of the central lath making sure that the lath is tight against the both mattress rails(some gentle inward pressure will help). Once these three laths are fixed, secure the remaining base laths, screwing down each lath in turn.

Note; if you are using an battery drill / driver we suggest that you use a longer driver bit or an extension piece as this will help distance the driver chuck away from the product, stopping the chuck rubbing against the paintwork.

Some "light" inward pressure on both rails before screwing down the bed laths helps keep the bed parallel

Fit the mattress.(two people)

Carefully lift the mattress onto the sleeping surface.

Please use the correct sized mattresses for this product.

PRODUCT SAFETY

Additional information

Periodically check that all assembly fixings are tightened properly, care should be taken to ensure that no fittings are loose.

Always follow the manufacture`s instructions.

Please ensure that good ventilation is maintained within the room in order to keep humidity low and to prevent mould in and around the bed;

WARNING Do not place this child`s bed near heat sources, windows and other furniture.

WARNING Do not use this child`s bed if any part is broken, torn or missing.

WARNING Hole covers Not suitable for children under 36 months due to choking hazard.

The bed can be dismantled for storage or transportation.

Children are likely to play, bounce, jump and climb on beds, therefore the child`s bed should not be placed too close to other furniture or windows, blind cords, curtain pulls or other strings or cords and should be placed either tight to any wall or have a gap of 300mm between the wall and the side of the bed.

Additional or replacement parts should be obtained from Little Folks Furniture.

Moving the bed

Do Not drag or twist the bed.

Lift the bed into place by supporting both the end bed frames and mattress rails, keeping the bed assembly all together and in unison. Removing the mattress will help reduce the overall weight of the bed.

Notes;
